Hi Joanne,

I just called and left a voicemail. Give me a call when you get a chance. I have a short meeting at 1:00 our time but should be around - or at least able to return your call quickly - other than that.

Good morning Nancy,

Hope you had a great weekend and are having a good day so far! I wanted to touch base regarding the labeling Webinar that's coming up on the 4th and I also had a new question as I venture into selling labels to current and potential clients, question is below, but I will touch base with you via phone this afternoon if we've not been able to connect via e-mail.

Labeling Question:

1. Does the EPA Mandate what Wording is to be put on the Warning Labels?

Then I had a question regarding Pressure Testing and was wondering if there is a specific link I can refer to and/or refer clients? I did try looking on EPA.gov but I think because I'm still so "green" I'm not using the right terminology to find what I need specific to the new Aug 16th Rules.

Kent will be here on and off this week but always has access to e-mail and of course so do I; I know you have a ton of other deadlines (not just this week) but we'd really like some time to take a look at what you've put together for the labeling Webinars so we are all on the same page and of course to make sure your, our and their (client) time is used wisely!

As always, thank you for taking the time to collaborate with us and advocate to the retailers about the upcoming deadline; we always appreciate it and thank you greatly!

Hi Joanne,

I looked through the presentations I've done before and looked at the label information. Unfortunately, what I've got isn't worth sending along to you at this point because it's not relevant. The slides that I have target the manufacturers/registrants - the people who are developing the labels and need to know the specific language to put on. I need to develop a brand new presentation for the purpose of the label webinar that target what retailers have to know. I need to gather some photos and information from registrants to be able to pull that together. My goal is to send you a draft by the end of next week. That's the best I can do because I have a lot of other deadlines before August 4.

Subject: Labeling Webinar

Hi Nancy,

Sorry again about today and thanks for your patience! Also, I wanted to touch base real quick about the Special Labeling Req's Webinar on Aug 4th; Kent will be out of the office travelling for business tomorrow but I will be here and he can get e-mail remotely. Of course we absolutely know how busy you are, but if you're able to send over what you'd like to use for the webinar Kent can have a look at it over the weekend. As always, Thank you!!
